Metro Schools Gambling and Games of Chance Policy

I. Purpose

The purpose of this policy is to set restrictions on gambling and games of chance at Metro Schools facility, grounds or school sponsored activities or events.

II. Policy

It is the policy of Metro Schools to prohibit gambling and games of chance that result in any form of financial reward, benefit, or loss to players. This policy applies to the Metro Schools facility, grounds or at school sponsored activities or events on or off campus. This policy allows the brief use of games of chance within curriculum standards related to probability.

While MN Statute 609.761 Subd. 5. allows public schools to run high school raffles, at this time the Metro School Board does not allow raffles to be run to raise funds for extra-curricular programs.
